

PRODUCT DATA SHEET

NUTRI FIBER

Delicious, high-fibre vitamin and mineral balancer, balances low-concentrate / no-concentrate rations

- Complete vitamin and mineral supplement for forage
- Good tasting – tested and approved by picky eaters
- Low in starch and sugar – ideal for sensitive horses
- High in fibre (25%)

15 KG / 300 grams (samples, as long as stocks last)

BALANCER

About Nutri Fiber

Cavalor Nutri Fiber is a good-tasting high-fibre balancer with a complete mix of vitamins and minerals, making it an indispensable supplement to forage. It is specially developed for horses that are fed forage and little or no concentrates. Cavalor Nutri Fiber contains essential fibre, vitamins, and minerals as well as pieces of carrot and apple. Even the fussiest eaters love it. Cavalor Nutri Fiber is a delicious, wholesome mix that won't overload your horse with calories and energy.

Forage is the key ingredient of a horse's diet. That goes for all horses. A horse's requirement for concentrates depends on its workload. Horses in maintenance or at light work often get enough energy and protein from high-quality forage and do not need additional concentrates. They will need a balancer, however, because forage will not cover their total vitamin and mineral requirements. Cavalor Nutri Fiber is a balancer. Nutri Fiber has all the vitamins and minerals a horse needs, making it an essential supplement to rations that contain little or no concentrate feeds.

What makes Nutri Fiber unique?

A powerful mix of vitamins and minerals

Cavalor Nutri Fiber contains covalently bonded hydroxy minerals (Cu, Zn) and chelated trace elements (Mn) for better absorbability and stability. Its vitamins and trace elements are provided in separate form to ensure stability. The green pellets contain vitamins and minerals, while the beige pellets contain trace elements. These two kinds of pellets are mixed so that each portion contains the right amount of each element.

Taste as an important feature

Cavalor Nutri Fiber is a balancer with concentrated vitamins and minerals. The separation of vitamins and trace elements ensures increased palatability. Delicious pieces of apple, carrot, carob and even pea make this mix extra tasty. Cavalor Nutri Fiber was tested on horses that are extremely picky eaters. All of them ate it with pleasure.

Fibre for optimum digestibility

Nutri Fiber contains lucerne, Timothy grass, linseed husks, and oat hulls. These high fibre ingredients provide more structure and support healthy gut function to ensure healthy digestion and nutrient absorption. They also add volume, so that Nutri Fiber can be fed generously without adding extra calories. Delicious and wholesome.

Advice

Cavalor Nutri Fiber as a balancer to add vitamins and minerals to rations that contain little or no concentrate feed.

For horses that get only forage, we recommend giving your horse 100–200 g daily per 100 kg of body weight, depending on workload.

If fed together with concentrate feed, the amount may be halved.

Work level	Only forage		Little concentrate	
	/ 100 kg BW	For a 500 kg horse	/ 100 kg BW	For a 500 kg horse
At maintenance	100 g	500 g	50 g	250 g
In light work	200 g	1000 g	100 g	500 g

Daily maximum for one horse 400 g per 100 kg BW.

Ingredients

Lucerne, linseed chaff, Timothy grass, oat hulls, carob, pea flakes, sugar cane molasses, flaked carrot, dried apple, rapeseed oil, soya meal (*).

(*)made from genetically modified soya.

TIP

Not all feed scoops are the same size. Weigh the contents of your feed scoop so that you know exactly how much your horse is getting.

Nutritional value	Quantity (addition per kg)
Energy value (EWP _a)	0,74
Protein value (VRE _p)	74 g / kg

Analyse	Quantity	Vitamins	Quantity (addition per kg)
Crude protein	10,1 %	Vitamin A (3a672a)	50 000 IE
Crude fat	3,2 %	Vitamin D3 (3a671)	5 000 IE
Crude ash	10,6 %	Vitamin E (3a700)	550 mg
Crude cellulose fibre	25,3 %	Vitamin C (3a312)	10 mg
Calcium	1,41 %	Vitamin B1 (3a821)	3,50 mg
Phosphorus	0,47 %	Vitamin B2 (3a825ii)	13,30 mg
Sodium	0,23 %	Niacin (3a314)	55 mg
Magnesium	0,18 %	Vitamin B6 (3a831)	2,80 mg
Sugar	7,9 %	Vitamin B12	0,05 mg
Starch	4,9 %	Vitamin K3 (3a711)	7 084 mg
		Folic acid (3a316)	2,62 mg
		Biotin (3a880)	0,300 mg

Trace elements	Quantity (addition per kg)
Ferrous sulphate, monohydrate – iron (3b103)	140 mg
Iron chelate of amino acids, hydrate – iron (3b106)	60 mg
Dicopper chloride trihydroxide – copper (3b409)	38 mg
Zinc chloride hydroxide monohydrate – zinc (3b609)	150 mg
Calcium iodate anhydrous – iodine (3b202)	4 mg
Cobalt carbonate coated granulated (3b304)	1,2 mg
Copper sulphate, pentahydrate – copper (3b405)	88 mg
Manganese chelate of hydroxy analogue of methionine – manganese (3b5.10)	150 mg
Manganese sulphate, monohydrate – manganese (3b503)	350 mg
Zinc sulphate, monohydrate – zinc (3b605)	350 mg
Sodium selenite, selenium (3b801)	0,69 mg
Selenomethionine produced by <i>Saccharomyces cerevisiae</i> CNCM I-3399 (3b8.12)	0,29 mg
